

GLOBAL EDUCATION WITH SAS

Becoming a Data Scientist with SAS - "SAS PROFESSIONAL"

*Open Lecture organized by the Event History & Multilevel Analysis Unit,
Institute of Statistics and Demography, Collegium of Economic Analyses,
Warsaw School of Economics on the
occasion of anniversary of XX YEARS SAS at the WSE – SGH*

Catherine Gihlstorf – Senior Academic Program Manager
at the SAS Institute Cary NC USA

SAS Global Certification program

Where to start? What types of certificates are offered by SAS?
Ways to prepare? How to pass?

SAS Student competitions

What are the benefits? How to participate? Where to find
information about SAS competitions? Are they recognizable?

SAS programs for Academia

What was offered until now, and what is going to be offered
since July 2014? How can faculties start co-operation with SAS?

How can students take advantage of such programs?

SAS Studio

What's this? Is it a SAS answer to increasing popularity of open source R? Why is it better from
previous SAS OnDemand? How will it benefit you in becoming a Data Scientist – short tutorial

Rafał Wojdan – SAS Student Ambassador 2014

SAS Global Forum – the very special place where SAS Student Ambassadors can present their papers to international audience

Brief coverage by winner of this year's SAS Student Ambassador
competition

Why should Business trust students and support their researches with its data?

How can both sides benefit of such collaboration? Why is it easier to
conduct such project when a student is at the same time employee at
the company whose data he/she wants to analyze?

Time : 5 pm 6th June 2014

Place: Room 3 B, build. C, Al. Niepodległości 128 , Warsaw School of Economics

OPEN SEMINAR WELCOME !
