The SAS Certificate

The 15-th anniversary of SAS Statistical Analyst Certificate Program

The "**Statistical Analyst with SAS System**" Certificate is an established and highly valued document, proving in business circles that its bearer possesses an **extensive analytical knowledge** and wide array of **professional skills**.

Its growing popularity was due to the fact that it enables its owner to start his or her **analyst career both in Poland and abroad**.

The whole program consists of **210 hours of lectures and practical applications** with the use of the SAS software.

The SAS Certificate at the WSE - the origin state

Over 20 years of cooperation between SAS Institute Poland and the Warsaw School of Economics

On **February 22-nd 2002**, on the initiative of prof. SGH Ewa Frątczak, an agreement regarding the grating of the Certificate was signed between the **Warsaw School of Economics**, represented by prof. dr. hab. Marek Rocki - Rector of the Warsaw School of Economics, and **SAS Institute Polska** - represented by Alicja Wiecka - Managing Director.

The First Edition - 6-th November 2007

The 1st Edition of the Certificate was held on the 6th of November 2007 and was attended by **dr James Goodnight** - owner of the SAS Institute.

During a formal gala, **dr James Goodnight** handed the Certificates to the students.

This year, at the **15-th anniversary** of the "Statistical Analyst with SAS System" Certificate Program, the Certificate will be handed to **almost 60 students and graduates** of the Warsaw School of Economics.

The 11th Edition Certificate Program distribution is special since it was the last year of its functioning in the existing form. By the agreement between **SAS Institute Poland and the Warsaw School of Economics**, new Certificates are available to be obtained.

The new SAS Certificates at the WSE from 20 September 2017

“Statistical Analyst with SAS – Basic Level” part of Bachelor’s degree course – 90 hours of classes.

“Data Scientist with SAS” – part of Master’s degree course in ‘Advanced Analytics – Big Data’ – 180 hours of classes.
