Finance and Accounting

Winter Semester 2014/2015

Dear Students,

I welcome you cordially at Warsaw School of Economics at the beginning of 2014/2015 academic year.

For the first year F&Acc students I send congratulations on good decision about studying program *Finance and Accounting*, which – I am deeply sure – will opening all important doors for yours future excellent professional career.

Program of *Finance and Accounting* will be challenging for many reasons, but it's worth to go through.

One from above mentioned reasons is that some among subjects will be delivered in eight-hours teaching modules. This kind of classes/lectures is necessary from substantive and organizational presumptions. Please, do not miss any class. Only in this case is possible to avoid difficulties in understanding next new merits-topics.

For the students of second year of F&Acc, I'm sending warm greetings and I wish all of you to pass all next difficult exams in the first sessions.

And now **info for both cohorts of students of F&Acc**: in any case of individual difficulties, please contact me during office hours dedicated specially for students of *Finance and Accounting*:

Thursday 4.00 p.m. - 5.00 p.m.
Department of Accounting, room 6/1, building C.

By the way, I kindly inform you, that in Department of Accounting I organized with help of Ernst&Young Academy of Business – to only use of students *Finance and Accounting* – small library with books needed for studying the subjects constituting ACCA block of topics.

Best regards

prof. dr hab. Anna Karmańska
coordinator of Finance and Accounting
Department of Accounting
